WHY USE IN-HOUSE PRODUCTION?

At In-House Production our job, quite simply, is getting you the labor you need.

When it comes to running your event, no one know better than you. You've imagined it, planned it, scheduled it, organized and publicized it, trucked it and shipped it. Now all you need is the right labor — and that's where In-House Production comes in. Whatever the event — industrial and corporate trade shows, conventions, concerts, theatrical productions, theme parties, special events — we can supply the right crew with the right qualifications and the right experience. Once you know what you need, In-House Production will deliver a qualified professional crew, reporting to and responsible to you and your staff.

ON THE JOB

BlizzCon 2009 @ Anaheim Convention Center

The much anticipated computer gamers convention was a huge success. The attendees were treated to bags of gifts, video clips of new updates and Q&A sessions with the creators of video game series such as World of Warcraft, Diablo and Starcraft. Performing the closing ceremonies was the “Prince of Darkness” himself, Ozzy Osbourne. There was also a guest guitarist, 9 year old Yuto Miyazawa, performing “Crazy Train.”

FEATURED PRODUCT

In-house Production's Pro-Lift 40

Pro-Lifter 12

Ever ran into problems lifting a tower truss? Why have a guy climb 40' to lace a chain on top of the tower truss? Or, watching guys walk backwards on 20.5" truss and having

them jump out of the way when then heavy tower comes crashing down; damaging equipment or worse, someone? These situations are no longer an issue with the Pro-Lifter 12. A cost effective and most importantly **SAFE** tower truss lift system. Call today for a quote.

TRAINING VIDEOS

“How to correctly swag a cable” and “How to correctly use Pro-Locks, Ver-Locks and Pro-Grips” training videos are now uploaded to our website. Our Instructor, Pat Bash, goes over how to correctly swag a cable and the correct use of our various cable grippers. See these two, as well as many more training videos to come, visit www.in-houseproduction.com or become a fan of our group on [Facebook](#).
